The Solar System

Once there was a little (Galaxy, in the	Adjective U	niverse. That g	galaxy was	called	Location	
LocationL	ocation In thi	s solar system, co	ontaining	Number	_planets, a	Noun	_that
gives us our heat, and li	ght, andAd	thousar thousar	nds of stars	Number	planets, h	mm seems	like a
small number. Well thin	nk again! Even th	nough eight is a _	Adjective	number,	these planets	are much b	oigge
than you may think, big	ger than you ma	y be able to imag	ine. These pla	nets includ	e, Jupiter, Ne	eptune,	
Mercur	y, Mars, Saturn,	Venus, And the _	Noun	(where we	e live.) There	are LOTS	of
different amazing thing	s in our solar sys	tem, and even be	yond that, in t	the <u>Nou</u>	. Just i	magine, we	e are
just a tiny little dot in th	ne entire	<u>.</u>
