# weird school

My school is           Adjective          . Everyone           Noun - Plural           in the hallway falls down on the ground. The  
bathrooms look like           Noun          . The windows are broken . A gym is horrible the floors are broken  
everything is falling , doors           Adjective           and brake within a day . Thank GOODNESS the day is over , i'm  
never going there again.
