Fariy god parent

Once upon a time I lived in a far away land, I was cinderella's fairy god father or mother . When she needed to go to a ball I turned a food from the kitchen into a car. four horses drove the type of transport and it had a driver who was a Animal. Her outfit was so perfect she wore a color outfit from dress ups. I will never forget that night the prince fell in love with her but the silly girl ran off without telling him her name she left behind her shoe. Luckily he found her and the lived happily ever after.
