How I Discovered Vocaloid

One day on my Electronic device I was watching Nyan Cat. Then I decided to check the Website comments on the video. In the comments there was a Adjective argument about who sange the original Nyan cat. There were comments like, "You Insult, Hatsune Miku sung it first!" and "How could Hatsune Miku have sung it first, Hastune Miku impart of Band, not Nyancat!" and I thought to myself "What's Band, some sort of meme?" so I looked up vocaloid on google and found lost of Type of music songs. After a while I loved vocaloid! My two favorite are Vocaloid Character and Vocaloid Character. I also love Fan-made vocaloid even if She or he isn't a real vocaloid!
