The Store

Yesterday, I went to Target to buy some some Article of clothing plural. When I found out they didn't have any more in my size, I was very Adjective, buy I ended up purchasing some Article of clothing plural. They were on sale--only \$Number each! It turned out to be a great bargain. I also got a Color polo and a white Noun and matching Noun - Plural. I was so Adjective that I Verb - Past Tense in front of everybody at the store! My sister, who was with me, was absolutely Adjective. She proceeded to Verb present tense behind a stack of Noun - Plural. When we got home, she declared that she would never go out in public with me ever again!
