## Gravity

Gravity is a basicNoun_	in the universe that attract	cts allNoun - Plural	to each other. You stay on
the ground because of the	Noun between your	Noun and the earth	n. As objects
get further apart, the gravitation	onal force between them gets	SAdjective - Comparative	It never gets to zero; it
just gets tooAdjective	to matter. This is why	Noun - Plural seem to be	e weightless in space. They
are not	; they are simply falling A	ROUND the Noun	Because the
of gravity depe	ends on your mass, your wei	ght is different depending	on how far away you are
