# Creation by Kat Mellon Mad-Lib

What is \_\_\_\_\_<sup>Noun</sup>? I thought about it once or twice and tried to understand, but I could not. I simply didn't have enough information. It is just as \_\_\_\_\_<sup>Adjective</sup> and \_\_\_\_\_<sup>Adjective</sup> as the words \_\_\_\_\_<sup>Noun</sup> and \_\_\_\_\_<sup>Noun</sup>. Simple words that, once uttered, caused \_\_\_\_\_<sup>Adjective</sup> damage to the Creator who uttered them. Some never returned. Some became \_\_\_\_\_<sup>Adjective</sup>. Some never spoke again.

I saw a man fall to the ground once. He oozed \_\_\_\_\_<sup>Noun</sup>. At the time, I thought it was something of Creation, a project of an Artist. Now, I am not so sure. I never saw that man again, and \_\_\_\_\_<sup>Noun</sup> is/are rarely seen. There was much of it. He must have been taken to the Community, as one is supposed to keep one's \_\_\_\_\_<sup>Noun</sup> to one's self.
