Brain nerds!

Once upon a _____^{Noun} there was a poor _____^{Adjective} man stuck in _____^{Noun} class. He
_____^{Verb - Past Tense} trying to figure out how he was going to pass the brain test. He sucks at memorization. So
he started out by _____^{Verb - Present Tense} the _____^{Noun - Plural} with _____^{Noun - Plural} that go along with
the names of them. So for example the frontal lobe he colored fusia so he associates _____^{Noun} with frontal
lobe on the test. Now he saw _____^{Noun} area.... And thought oh goodness I don't even know what this is! So
what better thing to use but _____^{Verb} to find _____^{Noun - Plural}. He found out that it is the ability to
_____^{Verb} speech. So He associated broca with broken speech. To memorize the lobes, he uses the phrase
_____^{Noun} passed out too! Franny=frontal lobe, passed= parietal lobe, occipital lobe, and temporal= too! He
is feeling a lot more _____^{Adjective} for his exam, after coming up with these _____^{Noun - Plural}.
