Autumn Fun

Once upon a time there was a little Noun named name that loved fall. He loved the colors of the leaves, the Noun , the Noun - Plural , and most of all, all of the Adjective food. He got Noun on Halloween and a huge feast with turkey, ham and food for Thanksgiving. He couldn't ask for anything more.

For Halloween he wanted to be a costume for trick-or-treating because he thought it was the Adjective costume of all. He thought he would get lots of food and tons of Noun .

For Thanksgiving, he was going to his aunt and uncle's house as he does every year to enjoy a huge Noun and watch some sport .

He knew this fall was going to be the Adjective fall ever.
