# My Job At Caption Call

I started working at CaptionCall in           Number          . My job here is pretty           Verb - Present Tense          . Sometimes I get calls that make me           Verb           and sometimes I get calls that make me           Verb          . I try to behave well but sometimes I get caught           Proper Noun           on a call. When this happens I feel           Adjective           and I try to make it up to my TLS by bringing           Noun - Plural          . I think I am one of the           Adjective - Superlative           employees but considering there are only           Number           I guess it's not that hard to be at the top. Next time I come to work I will make sure to sit by an           Adjective           person so I can stare at them when I get           Verb - Past Participle           on a call.
