Extreme Website Makeover

My Council's website is as engaging as my Grandmother's Dinner Dish. When residents visit our Adjective homepage they wrinkle their Part of the Body and say: "Exclamation", this page is looks like it's from Year". Users can almost never find Noun and often Verb the page frustrated.

We need and Extreme Website Makeover!! I want my Council's new website to be easy to navigate and interactive with the public. Our ideal web presence would be radiant like Elvis Presley
