## Build Your Own Snowman

1. First you start by getting a $\qquad$ of snow and pack it together.
2. Than you take that snow ball you just created and start $\qquad$ on the ground until you have a snowball to the size were you can barely put your $\qquad$ around it, this will be your large snow ball.
3. Repeat steps one and two expect make two snow balls; one half the size of the first one this will be your medium snow ball and the other one half the size of the second one this will be a small snow ball.
4. Take the medium size snowball and put it on top of the largest snowball, then take the small snow ball and put it on top of the medium size snow ball. (If the snow balls don't stay on top of each other add snow around the snowball where they ouch each other).
5. Find two $\qquad$ about the same length, four $\qquad$ of coal, an old scarf, and a carrot.
6. Take one stick and stick it in the upper $\qquad$ of the $\qquad$ snow ball and on the opposite side put the other stick in. Now your snow man has $\qquad$ !
7. Take two coals and put them about an inch apart on the small snow ball to create the $\qquad$ .
8. Take two pieces of coal that are left and break them place them at the bottom of the small snowball to create the mouth.
9. Place $\qquad$ between the top of medium snowball and bottom of the small snowball.
10. Place the $\qquad$ in between the eyes and the mouth to create the nose.
