# Mad Libs

I read a autobiography about Proper Noun - Plural . I found this really good paragraph about Proper  
Noun . I had no idea they had scripts on there Noun ! Also, Proper Noun got Adjective  
sick so his Noun had to give him a prescription. Did you know that Proper Noun didn't take  
geography and didn't learn about scribes yet? I Adjective want there autograph. At the end of the story  
there was a postscript saying that they thank us all for Noun the autobiography. They also, said in the  
postscript I could get one weeks worth free subscription to there Noun . I want to read a biography about  
them.
