Mad Libs

I read a autobiography about Proper Noun - Plural I found this really good paragraph about Proper
Noun . I had no idea they had scripts on there Noun ! Also, Proper Noun got Adjective
sick so his had to give him a prescription. Did you know that didn't take
geography and didn't learn about scribes yet? I want there autograph. At the end of the story
there was a postscript saying that they thank us all for the autobiography. They also, said in the
postscript I could get one weeks worth free subscription to there I want to read a biography about
them.
