Learning R

I'm embarking on a _____ Adjective adventure. I'm learning the _____ Adjective programming Language R.

At first it seemed _____ Adjective, _____ Adjective, and _____ Adjective. But every day I feel more

confident in my developing abilities. Today we learned about data _____ Noun - Plural and _____ Noun - Plural.

That will be very helpful. Last week we learned _____ Verb - Past Tense around with some pretty

_____ Adjective data _____ Noun - Plural. I feel a little confused still about _____ Noun - Plural,

_____ Noun - Plural, _____ Noun - Plural, _____ Noun - Plural and dataframes and how and when to use what.

Probably the _____ Adjective - Ends in EST difficult thing is that there are so many different ways to do the same

thing. It's not like you can memorize one _____ Noun or _____ Noun and then you're done. Last night, after

_____ Verb - Present ends in ING in RStudio for several hours I had the _____ Adjective - Ends in EST dream. I was in a

_____ Adjective data frame with _____ Proper Noun, _____ Proper Noun, _____ Proper Noun, and

_____ Proper Noun. We were all playing with the data and having a _____ Adjective time until Jared

_____ Verb - Past Tense an entire column, and made two of us just disappear. Luckily I _____ Verb - Base Form up.

whew!
