4.	Noun

## **Saving Energy**

Energy is one of the most parts of our noun
We use energy to do work. Energy lights our cities. Energy powers our vehicles, trains, planes and rockets.
Energy warms our homes, cooks our food, plays our music, gives us pictures on television. Energy powers
machinery in factories and tractors on a farm.
Energy from the sun gives us light during the day. It dries our clothes when they're hanging outside on a clothes
line. It helps plants grow. Energy stored in plants is eaten by animals, giving them energy. And
animals eat their prey, which gives the animal energy.
Everything we do is connected to energy in one form or another.
