# Regression Analysis Memories

My first memory of regression analysis was \_\_\_\_\_ Number \_\_\_\_\_ years ago, when I took Introduction to Statistics.

That class was \_\_\_\_\_ Adjective \_\_\_\_\_! I had a \_\_\_\_\_ Adjective \_\_\_\_\_ professor, named \_\_\_\_\_ Famous person \_\_\_\_\_.

I remember \_\_\_\_\_ Regression Thought \_\_\_\_\_ and \_\_\_\_\_ Regression Thought \_\_\_\_\_. That year I got a pet, \_\_\_\_\_ Animal \_\_\_\_\_. So I was very

concerned with \_\_\_\_\_ Verb - Present ends in ING \_\_\_\_\_ my \_\_\_\_\_ Animal \_\_\_\_\_. Instead of studying I was always

\_\_\_\_\_ Something you did in college \_\_\_\_\_. I ended up needing to cram before every exam and always drank 5 pots of

\_\_\_\_\_ Drink \_\_\_\_\_. I spent an all nighter at \_\_\_\_\_ Place on campus \_\_\_\_\_! I ended up doing fine in that class, but could

never remember how to calculate \_\_\_\_\_ Regression Thought \_\_\_\_\_ and \_\_\_\_\_ Regression Thought \_\_\_\_\_. Now I know that

regression analysis makes up the basis of a number of statistical methods. I may even use regressions for my

work with \_\_\_\_\_ A community group you are working with \_\_\_\_\_.
