# Conversation Heart Mad Lib

Once upon a time, there was a beautiful peasant girl named \_\_\_\_\_ who lived in a cottage in the middle of the woods. One day, a handsome prince rode by and saw her in her garden. He stopped and said to her, "\_\_\_\_\_." Shocked that anyone important would be riding in her woods, the girl answered, "\_\_\_\_\_." The prince immediately fell in love with her and was determined to marry her someday. He visited the girl's cottage every day, and said many romantic things to her like "\_\_\_\_\_,", "\_\_\_\_\_,", and "\_\_\_\_\_." He told the girl that she was very \_\_\_\_\_, and that she was undeniably the \_\_\_\_\_ he had ever known. He knew that she was his \_\_\_\_\_, and he wanted to give her \_\_\_\_\_.

In spite of all this attention, the girl remained cold and unaffected. When the prince came to talk to her, she usually replied, "\_\_\_\_\_" or "\_\_\_\_\_." The prince was certainly not \_\_\_\_\_ enough for her, and he would never be her \_\_\_\_\_.

One day, the prince decided that he could bear this no longer. If she would not love him back, today would be his last visit. He approached her cottage and shouted something he had never dared to say before: "\_\_\_\_\_!" Astonished, the girl replied, "\_\_\_\_\_", and ran into his arms. They soon were married and lived happily ever after.
