Yu Yu Hakasho End Theme

When my Noun reaches Pronoun , please don't Verb - Base Form the seal	
Just wait a little while give it time to heal	
And I belive you'll understand, just exactly how I feel	
This is my last my most request	
With a Adjective innocence, our Noun - Plural began to race	
With one thing on our, we foolishly embraced	
Now as closes in, I see you from a distant place	
And I'll wish for all the courage that you'll ever needto be your best	
And although it storms and its raining outside	
All the of the of the, still believe in the existence of the sun	
a forgotten melody the Animal (plural) in our hand	ds
A without, is a without, without, without,	iun.
