

my lib

1. Noun
-

my lib

Once upon a Noun in a forrest, there were three pigs and a big bad wolf. The wolf was bent on world domination and thought that the first appropriate step would be to terrorize some pigs. The first pig had a house of straw. The wolf blew down his house. The second pig had a house of wood, so the wolf burnt it down. The third pig had a house of brick. The wolf gave up. THE END.
