8. Mathematical Term
9. Mathematical Term
10. Sweet Food
11. Noun

# Who discovered pi

Many job have been credited with discovering pi like Full Name of a Person. Well, they did not Verb pi, I did. It all started when I was Verb - Present Tense Noun. I wanted to make each same noun Verb - Past Tense, so I decided to measure them to figure out. I realized when I was measuring that when you divide the mathematical term by the mathematical term, you get approximation the same number. I tried telling people, but they were more interested in sweet food than pi. Finally I wrote this story to tell you. Happy Noun day and don't forget to eat pie!
