# About Nyle

Nyle and his dad, John, share the same           Noun          . His brother, John III, and his mom Jane are both           Noun - Plural          . Nyle was a           Adjective           child. His family thought he was           Adverb                     Adjective           for the first 12 years of his life. Nowadays, he's the owner of his very own           Adjective                     Noun           and tells me stories of his youth that continue to make me think he was           Adjective          . He likes to compete in           Adjective                     Noun - Plural           and eat           Adjective                     Type of food          . Nyle also likes to wear           Adjective                     Article of clothing           and play           Noun          . In his past life, he was a           Proper Noun          . Nyle sure is           Adjective          . That's precisely why Connie wants to spend the rest of her life with him.
