# Kinky You

The night was \_\_\_\_\_ Adjective and you were walking down the street when a \_\_\_\_\_ Noun about the age of \_\_\_\_\_ Number loops their arm around you \_\_\_\_\_ Part of Body. "Come here you \_\_\_\_\_ Adjective \_\_\_\_\_ Noun!" they mutter and drag you back to their apartment. This was the person you once intended to marry. And now that might be needed. They strip you down and lay you on the \_\_\_\_\_ Noun, roughly shoving you into a good position. They finally make their move, your hips are touching, their lips at your \_\_\_\_\_ Part of Body \_\_\_\_\_ Body; kissing your body after the neck is finished. They really needed you, as the wet bed sheet proved. By the \_\_\_\_\_ Number round you are both gasping, all your clothes off and destroyed. The person turns to you and kisses you again. "I love your body." And then you start up again, roughly shaking the bed, screams echoing in the room. You put your mouth straight to their pleasure spot, and suck. \_\_\_\_\_ intensity. This eggs them on, their hips practically part of you. The parts joined, and pleasure echoes through both of you. The bed sheet is destroyed, and wet. You force in one last touch, before it all goes to the next level. Sucking and touching have gone upscale. Murmurs have turned into screams. And sex was never more \_\_\_\_\_ Adjective.
