6.	Proper Noun

## Transfering back to my school

There were once two young who wanted to transfer back to their school after spending some
time at another awesome school new and cool behaviors. These two young men were able
to work hard on learning appropriate behaviors, coming to when school was in session, and
spending time on their academic work in order to move back to their home school district. The staff are so proud
of these two young men, we will miss them, but know that they have matured to a point where
they are ready to spend their days getting to do new and special activities at their home schools. They will get the
chance to be in and other activities during and after school like special clubs and spend time
with new and old friends. Their at their home schools are so excited to have them back as
well, they know that they are ready and will do a fantastic job. We all are excited about what the future will
bring for these two amazing young men!
