# The Gold Fish Queen

There once was a           Noun           named Maddy who was obsessed with eating           Noun          . She had such a bad problem that her parents took her to a           Adjective                     Noun           therapist. The therapist could not help in any way. The obsession had already           Verb - Past Participle           so much. Her room was all           Noun           and she had a secret stash of           Number          ,           Number           boxes in her closet. She even had clothes that had the theme of           Noun          .           Adverb           she went to           Verb           and tried to fix her crazy           Noun          .

The End.
