The Comic Book Convention

San Diego Comic Con is the most Adjective comic book convention, but did you know there is another Noun convention that's quickly growing in popularity? It's called New York Noun. Taking place in New York City, also known as the Adjective Noun, as many as 100,000 people show up to meet such famous people as Full Name of a Person Lee, the creator of Noun Man, and TV legend First Name of a Person Shatner, who is best known for his role as Noun Kirk.

Of course, the convention can get a little Adjective. With so many people, things are bound to be Adjective. Noun Noun, the organization that runs the show, has an effective motto when planning everything -- Verb - Base Form, Verb - Base Form, and when you think you're done, Verb - Base Form some more. All in all, as long as the Adjective Proper Noun are under control, it's a pretty Adjective convention.
