## Amphibians

Amphibians are <u>Noun - Plural</u>. You'll find them near or in a <u>Noun</u> or stream, or on dry land, and most will have <u>Adjective</u> skin. All of them have backbones, and they have no scales or fur. Plus, they're all cold-blooded, which affects their temperature. Unlike you or me, they have their body temp \_\_\_\_\_\_\_\_\_ Past Tense by what's in their environment: from cool...to hot...to warm. Amphibians are born from Noun - Plural that don't have any shell. Instead, the eggs are made from something Adjective, like a \_\_\_\_\_\_Noun \_\_\_\_\_. When most are born, they breathe through \_\_\_\_\_\_\_\_ beneath the \_\_\_\_\_\_\_, and as they get older, they'll grow lungs and spend more time on land. Some have <u>Adjective</u> skin, while some have dots, or stripes. And all around the world, there are a host of different types. <u>Noun - Plural</u> are in this class, or group. The same is true of . At birth, they're both called tadpoles or sometimes Noun \_\_\_\_\_. The kids don't look like grown-ups (not even just a "tad") when they've first \_\_\_\_\_\_ Verb - Past Tense , but over time, they'll look like <u>Proper Noun</u> and dad. Salamanders tend to like the damp and dark to thrive. Their front feet mainly have \_\_\_\_\_\_ toes. Their back feet? Mostly five. Amphibians are <u>Adjective</u> ! They've survived throughout the ages.
