# Full Moon

Every month there is a full           noun          . Many family traditions are held on full moons. A tradition my family has done over generations is that we only           verb           broccoli on a full moon. There is a trick that monsters come out on full moons, like           plural noun          . I saw a monster once and screamed, "          interjection          !" I ran           preposition           the monster. The monster either growled           conjunction           laughed as I           adverb           fell over a root.           pronoun           ran toward me and I screamed. It was getting lighter. Finally, the           noun           came up. The sun never seemed so           adjective          .
