\_\_\_\_\_ Job title \_\_\_\_\_ Last name \_\_\_\_\_ Noun alone in his \_\_\_\_\_ Place \_\_\_\_\_. It was a rather pale \_\_\_\_\_ Place \_\_\_\_\_ . Nothing of \_\_\_\_\_ Noun \_\_\_\_\_. Or at least, not much of \_\_\_\_\_ Noun \_\_\_\_\_. The \_\_\_\_\_ Description ending in ness \_\_\_\_\_ of the space around him gave him the chills. The overall quietness was one of the few things of interest. He couldn't get caught yet. The gentle glow of the computer screen illuminated the room around him. Not yet.

Doctor Green had been working with what he knew as "The \_\_\_\_\_ Place \_\_\_\_\_" for two \_\_\_\_\_ Plural date eg years \_\_\_\_\_ months or decades \_\_\_\_\_. Of course, "The \_\_\_\_\_ Place \_\_\_\_\_" wasn't the real name. Or at least, the entire name. The entire name was restricted to him. All he knew was that there were three letters between "The" and " \_\_\_\_\_ Place \_\_\_\_\_". Three solitary letters that were always annoyingly blacked out.

Almost done. He'd download this file, smuggle it out on a USB and leak it onto the internet. People needed to know what went on in this \_\_\_\_\_ Place \_\_\_\_\_. Maybe he'd read through it first. After all, legally he shouldn't have access

to this file. Legally.

He was on the home stretch now. He'd make it. Maybe. \_\_\_\_\_ Verb - Base Form \_\_\_\_\_ Verb - Base Form around his

somewhat dull office Doctor Green noticed a colleagues notepad. Surely they wouldn't notice it missing.

He was doing it for the greater good. Or at least, he'd keep telling himself that.

Research notes of \_\_\_\_\_ Job title ?????

Date: \_\_\_\_\_ Number / \_\_\_\_\_ Number / \_\_\_\_\_ Number

Object being researched: Object number 512

Object 512 appears to be an average household box. However, due to the ?????? incident in the nothern-most

section of The ??? \_\_\_\_\_ Place it has been suggested that I, due to my previous experiments on objects,

oversee any experimentation on 512.

Date: \_\_\_\_\_ Number / \_\_\_\_\_ Number / \_\_\_\_\_ Number

Object

being researched: Object number 512

It would appear that 512 has destructive properties. Will research further.

Date: \_\_\_\_\_/\_\_\_\_\_/\_\_\_\_\_

Object being researched: Object number 512

Today a Level ? tier prisoner was placed inside the box. Screams were heard. The prisoner has no reappeared.

Will research further. Perhaps 512 could be used to our advantage.

\_\_\_\_\_ pocketed the notepad. Nothing really of interest. He'd seen the same story over and over. But if he couldn't get the other files out then at least it was something. Glancing back at the soft, blue glow of his monitor he noticed three words that instantly made him feel relieved.

Now he'd just need to leave. Just ignore the \_\_\_\_\_ of files he'd probably never have a chance to \_\_\_\_\_ at again if he simply left. \_\_\_\_\_ that little \_\_\_\_\_ icon only inches away from his mouse. Ignore it even though no one had entered his office for hours.

Object: \_\_\_\_\_  
Number

Date recovered: Unknown, it is possible that 100 has always been there, however due to it's nature this is highly unlikely.

Details of recovery: Unknown.

Object description: Unknown, any attempts to draw, photograph, paint or otherwise capture an image of 100 will suffer from it's effect.

Object effect: Object 100 is instantly forgotten by anyone who looks away from it. As such it is impossible to know what Object 100 is capable of. It is important to note that at times 100 has completely disappeared from our records, only to be rediscovered by one of our staff attempting to place an object in it's room.

Object intent (if available): Impossible to know. For now, we will assume that Object 100 is hostile and as such necessary precautions should be taken.

The following is a transcript of a conversation between \_\_\_\_\_  
Job title C??? and \_\_\_\_\_  
Job title S????

\_\_\_\_\_  
Job title C: Can you describe 100?

\_\_\_\_\_  
Job title S: 100? Sorry, didn't know we had an object with that number.

\_\_\_\_\_  
Job title C: Look over there.

[ \_\_\_\_\_  
Job title S. panics audibly]

\_\_\_\_\_  
Job title S: W-what is that?

\_\_\_\_\_  
Job title

C: I don't know. All I know is that that's Object 100. I'm going to try something new. Can you tell me what it doesn't look like?

\_\_\_\_\_ Job title S: It's... not circular

\_\_\_\_\_ Job title C: What isn't?

\_\_\_\_\_ Job title S: Sorry, I don't know.

\_\_\_\_\_ Job title C: Sorry for wasting your time, it would appear I've forgotten why I dragged you out here. I'm sure you have other things to do. Let's just pretend this never happened, shall we?

(Please note, \_\_\_\_\_ Job title S???? and \_\_\_\_\_ Job title C??? have been detained for further experimentation with Object 100.)
