I recall the day we buried the time capsule like it was yesterday. It was the Spring of 2013, I was a budding girl (about 12 or 13) finishing up my 7th grade year. Our school had just disclosed that we were going to be burying a time capsule and It would sit in a shallow Noun for 100 years! Everyone in the school went berserk Verb - Present Tense for things to put in the time capsule, letters to write to the people of the future, and even choosing the best picture to put of their self . I didn't Verb to be like Noun else Adverb, I wanted to put something in that would inform the people of the future what it was like in the year 2013. That's when my odyssey to find the three finest items to put in the time capsule began!
