Summer

One [_______] day my sister and I were talking about summer. We did not like the [_______] weather anymore and the [________] snow was starting to pile up. I already built a [________] snowman and had [________] snowball fights. My sister and I were ready for [_______] days at the beach. When we go to the beach it gets so [________] that the sand burns my feet. My favorite part is going swimming in the [_______] ocean. If the water is [_______] you can even see [_______] fish swimming below. I wish it was summer tomorrow and then we could spend [_______] days at the beach enjoying the [_______] sun.
