Sports

Sports can be Adjective. The most Adjective sports can be sport baseball and fence ball.

how do you play fence ball. its actually very Adjective. So this is how to play. Lets say you play with even number. So half the number people will be on each team. The person whose up stands at base about 4 feet from the pitcher. The pitcher verb or hits the Noun to the person whose up. If the person whose up catches the ball his team gets a point. If he doesn't verb the ball his team loses a point.

Then he has to run up with the ball to the 2nd base about low number miles away [which the teams decided before hand]. The other team has to tag him tackele him fence or fight him until they get the ball. if he his able to run to 2nd base with the ball his team gets Number points. If the other team gets the ball the person whose up his team loses a Noun and the other team gets a point. This game is recommended for Adjective - Ends in EST boys and Adjective girls. Hope you like this game because its Adjective maybe you will play some time.
