UMEMS Letter

Dearest UMEMS,

On April 1st, I will be stepping down as an FTO with UMEMS. I have had a <u>Adjective</u> and <u>Adjective</u> time working with you all. From patient's with <u>Part of Body</u> injuries, to fixing the ambulance <u>Noun</u>, helping you guys find the <u>Noun</u>, and explaining how to use a meow to find the <u>Part of Body</u>. I have enjoyed working with everyone and had some <u>Adjective</u> experiences throughout my time with UMEMS. For example, one time at TCF I got a call for <u>Odd EMS Call</u>, and when found the patient meowing in a puddle of their own <u>Adjust</u>, yelling <u>Overused Phrase</u>! at the security staff. Or that time where the Dr. Mossman moved faster than a <u>Animal</u> to get to a patient. Oh, and that time where I witnessed a full cardiac and respiratory arrest, and then you guys did amazing EMT work and kept him alive, with ventilation and compression until we could transport care. Yeah - that got serious, but you did save a life and that deserves props.

I will miss and <u>Verb - Base Form</u> every one of you guys, and leave you in the highly capable and <u>Adjective</u> hands of Nick, Liz, Mark, TBD, and TBD.

With that said, I am still your FTO until April 1st. I do have a few issues I want to address regarding your PCR writing.

1) Please not that <u>Adjective - Ends in EST</u> is not a real chief complaint. If the patient is really suffering from Adjective , they need to see a Verb - Base Form doctor right away. 2) If the patient is threatening to ______ verb - Base Form _____ you, call ALS immediately. Do not throw Noun - Plural at them, as that is illegal. Present ends in ING them, and making sure no blank spaces are left ______Adjective 4) Don't forget to sign the bottom! Otherwise we may get sued for <u>Verb - Present ends in ING</u> 5) Don't forget to write the times! Otherwise EMSRB will give us a Adjective grade, and revoke our EMS license, forcing us use the ambulance for _______ Verb - Present ends in ING ______ purposes. Finally, I found an old inventory form from like five years ago tucked into a trauma bag. You know how much I hate old inventory forms. Our new protocol if you find any old inventory forms is to: 1) Place it in a pile of _____ Noun - Plural 2) Douse it in <u>A Liquid</u> 3) Add more <u>A Liquid</u> to ensure a total and complete burn 4) Before burning, shred the old forms using a _____ and a _____. 5) Run over the shredded forms with a A Vehicle Type , and then, using a A Vehicle Type , Verb - Base Form the forms until they are illegible. 6) Using a blow torch, light the inventory on fire and roast until they produce a Adjective smell.

Now that that is out of the way, I will say my goodbyes. It has been a privilege and pleasure working alongside each and every one of you. I will likely continue working alongside you as an EMT, so hopefully it will continue to be a privilege and pleasure.

Best,

Shawn
