Weird Letter

Dear First Name of a Person,

California is really Adjective. I got to go to Theme Park multiple times, and I rode a lot of rides.

My Adjective ride in the whole park had to be California Verb - Base Form. One of my other Repeat

Last Adjective rides is Space Noun. The one that reminds me of me the most, is First Name of a

Person the Flying Animal. I love Verb - Present ends in ING on it, and riding on Repeat Last First

Name of a Person is like riding on myself, except, I'm not an Repeat Last Animal ! Other places in California are

fun too. I visited Location and met Famous Person himself... Okay, not himself, but an

impersonator. I also saw Famous Person ! It was so awesome! Location is a really Location

place too. There's a lot of rich people that I met, and I really wanted to steal stuff from their house. When you go

to California, you should do all of these things like I did.

Sincerely, your Relative Possessive boyfriend and your Animal,
