# Thief!

I like           Noun - Plural          . I mean, they are so           Adjective          ! They are the best           Noun - Plural           treat I've           Verb - Past Tense           in my 564 years of living. I like to eat cupcakes in the afternoon, because that's when they are the most moist. One afternoon, during my cupcake munching time, I couldn't find any cupcakes in my house; for some reason, a chimpanzee by the name of Bobo had stolen them from my pantry. So, in a brutal act of revenge, I beat him with a coconut and stole all his bananas (as well as the cupcakes he had slyly robbed from my innocent hands). I hope, for his sake, he never rolls up to my block again!
