

ally

1. Noun
-

ally

Teachers love our because it makes grading so much faster and easier, with the flexibility to grade the way you want. That's why it's the #1 Noun for elementary, secondary, and higher ed. All common tasks are streamlined to save you time, so you can focus on what matters: instruction. Easily record standards-based assessments, take attendance, grade assignments on rubrics, and keep behavior logs. See whose grades are dropping, and email your whole class. Students and parents can login to check grades and homework, download files, and view announcements and calendar notices. Parents can set alerts for low grades, missing assignments, and absences. By improving school-to-home communications, Jupiter helps your school and your students succeed. With Jupiter our is a seamless extension of our SIS, or integrate it with any 3rd party SIS. Features & Benefits End-to-End Solution Our is part of our Jupiter all-in-one solution: A student can study a tutorial on their tablet while you monitor their progress, then take an online test, which feeds directly to your which feeds into the SIS, where administrators can run analytics to measure the effectiveness. Or you can import data from your existing Student Information System into Jupiter to easily synchronize all students and schedules, and export report card grades. Online Access & Email Parent/Student Portal -- Parents and students can login anytime to check their current grades and homework. Everyone has their own password, so grades are always private. Everything is updated live, so you never need to upload anything. Email & Text Messages -- Send progress reports and messages directly from Jupiter to parents and students. Alerts -- Parents may receive automatic alerts whenever their child is absent, missing assignments, or has low grades. Spanish Translation -- Report cards, comments, email, and alerts are translated automatically for Spanish-speaking

parents and students. Elementary, Secondary, College Our has specialized settings for multiple-subject classes, single-subject classes, and college/adult education. Grading Each teacher grades their own subject on report cards, so the homeroom teacher doesn't need to. Create your own rubric charts and scales, and share them with colleagues. Customize letter grades or numeric grade scales. Customize weighted or categories. Set weighted grading periods and exams. Customize special marks for missing work, excused assignments, etc. Set default grading options for the whole school. Set different grade settings for different classes. Enter scores as points, grades, rubrics, even adjustments (25+2 or 40-5%). Drop low scores automatically. Override or adjust the total grade for each student. Curve grades for any assignment. Create independent study assignments for one or a few students. Graph how each assignment raises or lowers the student's grade. At-a-glance see whose grades have gone up recently and whose have fallen. Show students "What If" scores so they can see what they would need to reach a certain grade. Standards-based Common Core State Standards are pre-loaded. Aligns tests and assignments to specific objectives, so report cards are calculated automatically, and teachers and admins can monitor student progress anytime. Calculate students' latest levels achieved, as advocated by Dr. Robert

Attendance Take roll online by seating chart or roll sheet. Use a tablet or smartphone to take roll anywhere. Attendance grades are calculated automatically. Seating Charts Easy click-n-drop seating charts. Unlike most other systems, seats are not confined to just rows and columns. Optionally show student photos. Custom --

Customize your own discipline codes and disciplinary actions. Good Behavior -- Also log good behavior, merit points, parent contact logs, and non-disciplinary issues. Referrals -- Submit referrals online, so the office receives them immediately. Alerts -- Optionally alert parents for each incident. Also students see their own discipline

log online, so they know they are accountable! RTI -- Monitor each student's log to see if behavior is improving for Response To Lesson Plans & Curriculum Map Create a library of lesson plans, and schedule them on the calendar. Share lesson plan with other teachers. Easily check how many assessments you have for each objective in each grading period. TA's & Team Teachers Give TA's their own login with restricted access, e.g., to enter scores without seeing students' total grades. Share some or all your classes with a team teacher(s), so you both can enter grades at the same time. Reports Grade Reports Missing Assignments Class Grade Lists Spreadsheet Roll Sheets Discipline Logs Seating Charts Rosters Lesson Plans See also Report Cards & SIS reports Tech Specs Cloud-hosted -- Jupiter is cloud-hosted to save you thousands in IT costs, while providing maximum security, reliability, and scalability. We handle all maintenance, backups, and upgrades. No software or installation required, so implementation is fast and easy. Browsers -- Compatible with Chrome, Safari, Firefox, and Internet Explorer. (The LMS tests & lessons are not compatible with Internet Explorer 6-8 unless you install Chrome Frame.) No plug-ins required. The optional Juno Lockdown software (to prevent cheating on tests) requires Internet Explorer 9+ for Windows or Safari for Mac. Mobile -- Designed for iPhone, and Android . Teachers can easily enter roll and grades, submit referrals, and monitor tests. Admins can receive referrals and locate students. Students can check grades and homework, and do their online homework anywhere. Parents can check grades, homework, attendance, and discipline. Security & Privacy -- Jupiter automatically detects suspicious logins and alerts you immediately by email. We use SSL encryption, all passwords are salted and hashed for maximum security, and we have proven defenses against malicious attacks (XSS, SQL injection, brute force, phishing, etc.). Jupiter is fully compliant with FERPA and COPPA. Backups -- Our servers are backed

up nightly, and grades and attendance are backed up continuously, so you can restore them to any point in time.

Reliability -- Our servers are optimized to handle millions of students, processing each webpage in less than half a second during peak hours! We use redundant disk drives, routers, and power generators for maximum uptime.

Role-based Security -- Customize restrictions for teachers, clerks, counselors, AP's, principals, TA's, substitute

teachers, etc. Support -- Technical support is available by phone or email. Because Jupiter is cloud-hosted, we

can remotely view your account whenever you need support, and even adjust your settings for you. (For privacy,

you may block us from seeing personally identifiable student information.) Most questions are answered in less

than one hour. Try It Free! Product Sheet Product Sheet The program is VERY user-friendly so even those

teachers who don't catch on to new technologies very quickly could also use it. Joe Wright City Middle School,
