# Why I Relay

When I think about relay, I think about           Noun          . It makes me feel so           Adjective           to know that I am           Verb - Base Form           and           Verb - Base Form           to finish the fight against cancer. I am so proud of how I use my           Noun           and           Noun           to fight this terrible disease. On the leadership team, I feel my role of           Proper Noun           is critical to our success! I feel our event leadership team will be most successful if we           Verb - Base Form          ,           Verb - Base Form          , and           Verb - Base Form          . My favorite thing about last year's relay was           Noun          ; it was           Adjective           to be a part of it. Relay inspires me to           Verb - Base Form           and           Verb - Base Form          . I relay in honor/memory of           Proper Noun          , and it is because of their           Adjective           in the face of cancer that I continue to fight for them. What excites me most about Relay 2015 is           Noun          . As we reflect on the last 30 years of Relay, I am more           Adjective           than ever to finish the fight in the years to come!
