# Dino Disaster

Last week I was \_\_\_\_\_  
\_\_\_\_\_ and I got so dizzy, I fell down. When I opened my eyes everything looked different. The  
\_\_\_\_\_ were strange and there was a \_\_\_\_\_ sound on the \_\_\_\_\_. What was it? I  
stood up and looked around. Then I heard it-the sound of a large beast coming my way! I ran! What was it? I  
gazed up at the sky and I saw a \_\_\_\_\_ bird, or was it a bird? It was a flying dinosaur! "Where am I"; I  
thought, or more correctly, WHEN am I? The sound was getting louder-I hid under a \_\_\_\_\_ but then I  
saw a snake \_\_\_\_\_ towards me. Uh-oh! I \_\_\_\_\_ again and came to a clearing.  
There in front of me was a \_\_\_\_\_ plain with all kinds of dinosaurs roaming around. But the thumping  
sound was still coming from behind me. Where to go? \_\_\_\_\_ just stood there, frozen to my  
\_\_\_\_\_ and then it happened. The thumping sound got louder and louder and the beast \_\_\_\_\_  
\_\_\_\_\_ through the bush. But instead of eating me, it stopped and \_\_\_\_\_ at me. It looked  
scared. More scared than me. It was not a T-Rex, it was an \_\_\_\_\_ a plant eater. It walked over to me  
and \_\_\_\_\_ me to walk along and be \_\_\_\_\_.
