## **The Waverly Game**

| 10 seconds into the game and I finally touch the ball and let it, and right as I let the ball                         |
|---|
| go I know it is going in. Swish. About seconds later I steal the ball and let another three soar                      |
| through the air, and as I hear the swish through the net and I hear the fans cheering "                               |
| , nice shot", this is when I knew we are gonna win.   |
| As I am thinking Waverly isn't ready for us they go on a 10-0 run, with 2 minutes still left in the first quarter. I  |
| was really feeling it this game like I always try to do against Waverly, and I already had 20 points at half and I    |
| had managed to help our team tie the game at halftime. However halftime brought news                                  |
| though, I had got my bloody of the game, and this one wouldn't stop bleeding.   |
| By the time the second half had started I had already made my way through 5 tissues and the bleeding didn't look      |
| like it was gonna be stopping anytime soon. Third quarter was when my bloody nose stopped which was                   |
| , but I had re-hurt my sprained ankle again. It was swelled up , but I got some                                       |
| tape on it and I was ready to go again in the fourth quarter, and I was ready to win the game.                        |
| Immediately the ankle started to hurt in the fourth quarter, but I knew I had the rest of my night to complain        |
| about my Noun, I was going to win us the game. Waverly had Verb - Past Tense Noun in                                  |
| the fourth quarter, and It was the exact opposite for me. All the shots from the first three quarters that were going |
| in would not fall for me now, but I started to make my shots with about two minutes left which                        |
| helped us seal the deal We finally ended winning the tough game by 10, and I ended the game with 38 points            |
| and   |

| I learned from this game that whatever life verb - Base Form at you, like a sprained ankle, or a              |  |  |
|---|--|--|
| nose, you just gotta keep moving forward and don't let anything stop you from reaching your                   |  |  |
| goal. And keep fighting, keep competing, keep working, and you will be granted with good things, like our win |  |  |
| against Waverly.  |  |  |
|   |  |  |

5 assists.
