6. Adverb

The Kitchen

I was in the kitchen making me dinner and heard a noise it was a Noun but no one was there the only thing that was there was my Adjective. But I was thinking that dogs Noun are silent and the Verb - Past Tense I heard was pretty loud. so I was looking around the kitchen and I saw my Noun eating chili and chili gives you the Adverb. A and so I figured out who it was so yeah.lol.
