ercy Bysshe Shelley ~ Love's Philosophy

The Noun - Plural mingle with the river,

And the Noun - Plural with the ocean;

The winds of Location mix Length of Time,

With a Adjective emotion;

Nothing in the world is single;

All things by a Noun divine

In one another's Part of Body mingle;--

Why not Pronoun with thine?

See! the Noun - Plural kiss high heaven,

And the Noun - Plural clasp one another;

No sister Noun would be forgiven,

If it disdained its Family Member;

And the sunlight Verb - Present ends in S the earth,

And the Noun - Plural kiss the Noun;--

What are all these kissings worth,

If First Name of a Person kiss not Pronoun?
