# The Robot

The \_\_\_\_\_ watched his robot \_\_\_\_\_, admiring its sense of purpose. \_\_\_\_\_ knew what it was, and what it had to do. It was \_\_\_\_\_ to lift crates at one end of the \_\_\_\_\_ and take them to the opposite end. It would \_\_\_\_\_ do this, never once complaining about its \_\_\_\_\_ in the world. It would never have to agonize over its identity, never spend empty nights wondering if it had been justified \_\_\_\_\_ a promising and \_\_\_\_\_ music career just to \_\_\_\_\_ a bigger paycheck. And, \_\_\_\_\_ his robot, the engineer decided that the next big \_\_\_\_\_ in the robotics industry would be programming automatons with a capacity for self-doubt. The engineer needed \_\_\_\_\_ company.
