Harry Potter and the [Blank] of [Blank]

The basic story is Adjective: Harry Potter is a Adverb Adjective schoolboy, living with his Adjective, abusive aunt and uncle after being Verb - Past Tense in his Noun, who on his eleventh birthday Verb - Present ends in S he isn't really Repeat Last Adjective at all. His Noun - Plural were both powerful Noun - Plural, and Harry himself is the renowned defeater of Name, would-be Adjective Position of Authority of the wizarding world. Repeat Last Name had attempted to kill Harry when the latter was only a Period of Time old, but for unknown Noun - Plural, the curse he cast at the boy Verb - Past Tense himself instead, Verb - Present ends in ING him... sort of.

Harry goes to Location, the Adjective school of magic, and is Adjective. There are the normal school Noun - Plural -- Noun - Plural, Adjective teachers, the three-headed dog guarding a Adjective something -- but nothing Adjective, until he sees a dark shadow creeping through the habitat. Verb - Present ends in ING, he eventually discovers that Repeat Last Name did not truly die. Though his Noun was Verb - Past Tense, his Noun clung to life, seeking ways to Verb - Base Form from death and resume his campaign of Noun.
