Why do I have to go to school?

I decided to go back to to better and further my career. I needed to get a little
piece of, which would eventually be something that no one could take away from me. My
boss kept telling me I had to complete an education plan and it would be really easy. The
hardest thing to do was to start. I started off with general education courses. It was tough for me
to figure out my schedule with such a Mdjective workload and social life; this was really going to eat into
my drinking time. With me working full time, I decided to pursue a Bachelor's of Science in
Proper Noun and the U of Proper Noun . The upper division Noun - Plural were most
interesting. I learned a lot about global business practices, statistics, marketing, and most of all how to B.S. my
way through many different School at the U of also challenged my
skills as I had to prepare many power points. I love making power points and verb -
in front of large groups of people now! Studying before work, after work, at work, and over the
weekends was also fun. Class after class, was not sure if it would ever end, and going to
learning team meetings without a single friend! Maybe school taught me how to rhyme, or rap, thank god I am
done with that school crap.
