5. Verb - Base Form
6. Animal

# Jonah

Dear God,

Hey it's me Jonah. I'm feeling very emotion

because you asked me to something that was Adverb

I didn't want to go tell those           Noun - Plural           they were being           Adjective          .

So I ran away from           Noun           and jumped on the           transportation          .

There was a very big storm and I was           Verb - Base Form           into the noun

Then I was swallowed by a           Animal          .
