# This Was A Nightmare!

Well, I don't know where to Verb. I went to sleep last Noun and noticed that the power had gone of on my Noun. But everything else was fine. Then I saw it. it was the Grinch. Licking his Noun - Plural and Verb - Present Tense my candy. Then the Adjective - Superlative thing happened. He went to my sock drawer and pulled out my Noun of money. And you'd never guess what he did. He ate my money. He actually ate my money! I screamed to the top of my Noun - Plural but no one could Verb me, I couldn't even Verb myself. Then the Grinch left and here comes in the Cat in the Hat.
