Security

Hi I'm _____Proper Noun_____ from COMPUTICA, taking care of your _____Noun - Plural_____, _____Noun - Plural_____,

_____Noun - Plural_____ and _____Noun - Plural_____. Today I'd like to talk about security. Ever since the Internet was

invented by _____name of BAN member_____, passwords have been a necessity. Today it's very important to have

_____Adjective_____ passwords and change passwords as often as you change your _____article of clothing_____. You've

heard me talk about ransomware last week and how it now encrypts the filenames so you can't even tell what the

names of the files are that were encrypted. Well, the hackers have upped it one more level. NOW they are

downloading your data and threatening to sell it on the open market. So prevention is even more important now

than it ever was. I'm _____Proper Noun_____ from COMPUTICA, taking care of your _____Noun - Plural_____,

_____Noun - Plural_____, _____Noun - Plural_____ and _____Noun - Plural_____.
