7.	Verb - Past Participle	

Genetics

Hereditary information is contained in <u>Noun - Plural</u> , located in the <u>Noun - Plural</u> of
each cell. Each <u>Noun</u> carries a single unit of information. An inherited <u>Noun</u> of
an individual can be determined by one or by many genes, and a single gene
can influence more than one trait. A human <u>Noun</u> contains many thousands of
different genes.

The ______ of an organism can be described in terms of a combination

of traits. Some traits are <u>Verb - Past Participle</u> and others result from interactions

with the environment.
