## what Harry potter charicter are you

## what Harry potter charicter are you

| Title: What Harry Potter Character are you?                                               |
|-------------------------------------------------------------------------------------------|
|                                                                                           |
|                                                                                           |
|                                                                                           |
|                                                                                           |
|                                                                                           |
|                                                                                           |
| You are Proper noun Smart girl extraordinaire.                                            |
|                                                                                           |
|                                                                                           |
|                                                                                           |
| What more least in the first of years                                                     |
| What people think of you:                                                                 |
|                                                                                           |
|                                                                                           |
|                                                                                           |
| Harry:friend. She's very smart and sometimes helps us with our homework. If not, then she |
| does it with Proper noun and Proper noun gives us answers.                                |
|                                                                                           |
|                                                                                           |
|                                                                                           |
