# Client

Therapist encouraged \_\_\_\_\_ Noun to actively participate in groups today and to challenge himself to continue sharing \_\_\_\_\_ Preposition or subordinating conjunction his social history. Client presented to program with a positive \_\_\_\_\_ Noun and stated that his goal \_\_\_\_\_ Verb - Past Tense to continue learning about thinking errors in relation to his offense. Client was goal-oriented in \_\_\_\_\_ Noun prevention and discussed his history of victim blaming and being unwilling to accept responsibility. Everett was receptive to feedback and agreed that his past use of these thinking errors were mechanisms. Client continued to engage in groups and volunteered to read and illustrated "recovery" in an art therapy project. Everett discussed the concept of bettering himself and seeing recovery as bringing brighter colors and opportunities into his life. During wrap-up, Everett stated that he achieved his goal for the day and that he was in a positive mood.
